## ABSTRACT

Busia County (Funyula division) .The research was based at Funyula division schools which were randomly selected. The school had girls who were affected by the vice of sexual harassment amongst girls. This study aims at establishing ways of protecting girls from being harassed sexually in order to give them peace of mind, conducive and secure environment for their studies. It was noted that girls were dropping out of school as a result of early pregnancies which came as a result of sexual harassment. The researcher tried to find out possible solutions to overcome this problem. The researcher learned the school near the town were the mostly the victims of this vice and the most affected were ladies. The girls were not only harassed by teachers or other scholars but also by foreigners and outside were problematic to the day scholars since they had no enough security to and from school. The researcher used the questionnaire to administer the research from the teachers, administration and the girls themselves. The data collected was analyzed in form of tables and pie chart.
