## **Abstract**

The purpose of this study was to find out causes of indiscipline among students in public secondary schools and the remedies been undertaken to curb the re-occurrence of the same. This study was grounded in the perspective that valuable insights about the issue of student indiscipline could be obtained from the students themselves. It was hoped that the students' voices provided some information about the reasons for indiscipline and the methods which were effective in maintaining discipline. Simple random sampling was used for selecting the students from the target population. The researcher used a sample size of one hundred and fifty respondents. The main instrument that was used by the researcher to collect data was questionnaire. The questionnaires were designed in such a way that the causes of indiscipline, effects and remedies were fully assessed. The chapter two of this study focused on related literature and materials. It provided a broader insight of the study. The chapter three of the study focused on the research methodology and research instrument that were used in the study. Chapter four of the study outlined the findings of the study as per the objectives.

Several conclusions were made on the causes of indiscipline among secondary school students in Kiambu Sub – County, Kiambu County.
