A RESEARCH PROJECT TO THE SCHOOL OF EDUCATION IN PARTIAL  
FULFILMENT OF THE REQUIREMENTS FOR THE AWARD OF DEGREE IN  
BACHELOR OF EDUCATION OF MOUNT KENYA UNIVERSITY

JANUARY 2015

## ABSTRACT

The purpose of the study was to determine the effects of teaching English language in public primary schools in Lari Zone Kiambu County, with an aim of making recommendations. To achieve this, the researcher carried out literature review to identify the gaps existing in previous studies. This states as background information and statement of the problem in chapter one. In chapter three, the researcher has used elaborate methodology to carry out the research. The presentation of the research was done using tables, graphs and pie-charts. The research findings and discussions have been explained in chapter four. The summary conclusion and recommendations have been spelt out clearly in chapter five with an aim of improving the teaching of English language.
