THE REQUIREMENTS OF BACHELOR OF LAW DEGREE

FACULTY OF LAW

AUGUST 2013

ABSTRACT

This research looks at the areas where the sexual offence Act no. 3 of 2006 has failed in its provision. It looks into issues that are real yet not provided for. It looks at how the provisions of this law have failed to sufficiently explain certain issues like consent and the effect the provision of bogus victims has and also the issue of minimum sentencing affects implementation of the law. It further looks at the shortcomings of the implementation mechanisms.
