## ABSTRACT

The purpose of this study was to find out causes of indiscipline among students in public secondary schools and the remedies been undertaken to curb the re-occurrence of the same.

This benefits the teachers, parents in the selection of successful strategies and methods materials to use, that met the unique needs of the students in Kitui County and in Kenya as a whole.

It also benefits all the stakeholders in the ministry of education in preparation of appropriate curriculum system that caters for learners in public secondary schools.

This study was grounded in the perspective that valuable insights about the issue of disparities of current system of education in secondary schools. It was hoped that the students' voices would provide some information about the causes of disparities of current system of education in secondary schools. The findings of this study may assist teachers in identifying some of the effects of disparities of current system of education on academic performance in secondary schools and also lead to the development of new strategies and measures that can be used to eliminate disparities of current system of education in secondary schools.

It provides a new body of knowledge that is useful in eliminating disparities of current system of education in secondary schools in Kenya.

The case study was used to collect information from parents, Head teachers, educational stakeholder from Ministry of Education and students. This is because case study involves an individual and so this allowed researcher to use secondary schools to investigate the disparities of current system of education in secondary schools in Mutonguni Sub – County, Kitui County. The researcher also used questionnaires to Head teachers in public Secondary schools and learners to determine the effects of disparities of current system of education on academic performance in secondary schools in Mutonguni Sub – County, Kitui County.
