PROJECT TITLE: ONLINE HOSTEL MANAGEMENT SYSTEM

SCHOOL: PURE AND APPLIED SCIENCES

NAME: MARY NJERI KAMAU

REGISTRATION NUMBER: BBIT/000103/212/14123

ABSTRACT

Hostel management system is a software developed for managing various activities in the hostel. For the past few years the number of educational institutions have been increasing rapidly. Therefore the number of hostels in MKU are also increasing for the accommodation of the students studying in this institution. There is a lot of strain on the persons who are running the hostel and the software's are not usually used in this context. This particular project deals with problems which occur when carried manually. Identification of the drawbacks of the existing system leads to the designing of computerized system that will be compatible to the existing system with the system which is more user friendly and easy in application.
