ACKNOWLEDGEMENT

I wish to acknowledge the efforts put forth in terms of contributions by several people with whom this project paper would not have been successful.

First and foremost I thank the Almighty God for provision, good health, knowledge, strength and a peace of mind while carrying out this research. I would also like to recognize and sincerely appreciate the efforts of my supervisor Mr. Tumaini, for the guidance, encouragement and his endless assistance while carrying out this research. Gratitude to Mount Kenya University-Nairobi Campus for providing us with well equip lecturers and tutors who are forever committed to their work and mentor students throughout their course. Lastly, I thank the management and the support staff of Equity Bank who greatly assisted me during my data collection.

May the Almighty God Bless You all.
