DEGREE IN EDUCATION,

MOUNT KENYA UNIVERSITY

DECEMBER 2012

ABSTRACT

The main purpose of this study was to establish the major causes of poor performance in K.C.P.E examination in and the corrective measures that can be taken.

A statement of the problem was there fore started objectives of the researcher was set to find out the challenges. In Chapter two literature was reviewed in relation to the topic under the study, the study employed a descriptive study design. The population of the study was twenty eight respondents, the study was analyzed both quantitatively and qualitatively, and finally summary of the findings, conclusion and suggestion for further study was made at the end of the study.

The research findings revealed that there were varied causes that contributed to the poor performance ranging from curriculum delivery, supervision, altitude of both teachers, parents and learners, infrastructure etc.

The research recommended that the schools C.E.O. should take charge and manage the curriculum with the available human material and financial resources through not enough.
