ABSTRACT

Indiscipline being the most common problem in all social institution and in the society at large. The cause of the phenomenon have brought about controversy issues in most institutions hence the school administration the parent, the churches and government have made a concerted effort to curb the problem but with little success.

The main objectives of the study is to find out the major cause of indiscipline among high school students to find viable solutions to the problem of indiscipline among the high school students.

It is to be carried out in Homabay county Asego division and it includes several institutions for sampling. This study is important to the society because indiscipline in school spills over to the outside environment, it is also important to researchers educationalists interested in doing more research on student's indiscipline and parents.

The research methodology to be used in this research include the use of telephone, interview, questionnaires, population data collection method, data analysis technique.

Data analysis included quantitative and qualitative, both primary and secondary data collection were used.
