ABSTRACT

This project is done to look at the reasons as to why English is poorly performed by upper classes learners in Juja Zone of Kiambu County. Purposive sampling is to be done in Juja zone. English performance in upper classes of this zone will be studied to get reasons as to why learners perform poorly while in upper primary.

The researcher intends to use questionnaires, interviews for data collection to gather the information required. This will attempt to improve the performance of English in upper classes juja zone
