Message From THE CHANCELLOR

PROF. JOHN J.M. STRUTHERS,
MA (Hons), MPhil, FRSA, FHEAS
Chancellor, MKU

Salamu!

I wish to send greetings from the University of the West of Scotland as I also congratulate MKU on the continued growth despite the adverse effects of the COVID-19 pandemic experienced globally. Hats-off to MKU's leadership in championing for peace in the country and globally as evidenced in the choice of the Theme of the 21st Graduation Ceremony on a topical matter, namely, **“The role of universities in peace building for socio-economic development”**. I further commend the University's ever-rising impact through partnerships at all levels; from County Governments level to National,

continental and internationally. These include: the ongoing United Nations Academic Impact (UNAI) SDG 10 Hub on Reduced Inequalities as being championed by MKU. The UNAI SDG 10 platform has led MKU to relate with other UNAI SDGs Hubs on areas of interest. For example, MKU's 2nd International Conference on Peace, Security and Social Enterprise hosted in May this year saw Prof. Mark Charlton of De Montfort University, England, and In-charge of the UNAI SDG 16 Hub on Peace, Justice and Strong Institutions serve as a Keynote Speaker; the reciprocal relationship with the Nagaoka University of Technology (Japan), the UNAI SDG 9 Hub on Industry, Innovation and Infrastructure, cannot go unmentioned.

At the continental level, the consortium of Bayero University (Nigeria), a World Bank-sponsored Academic Center of Excellence on Population Health and Policy (ACEPHAP); Maseno University (Kenya); Masinde Muliro University of Science and Technology (Kenya); Baraton University of Eastern Africa; Pwani University (Kenya); Technical University of Kenya; and Karatina University (Kenya) on Nutrition and Dietetics; the Kenya Medical Laboratories Technicians and Technologists Board (KMLTTB) partnership on Medical Laboratory Science training; the UNESCO Regional Office of Eastern Africa's partnership on the O3 PLUS project on students' psycho-social empowerment; the partnership with Nyeri County Government on collaborative research and consultancy in Medical Sciences; and the Marsabit Botanical Garden (Kenya) partnership are all well informed. As the University Chancellor, I welcome the new stakeholders, who have joined the remarkable list of MKU's partners in **Unlocking Infinite Possibilities** through teaching, research and community service. To the graduands, I congratulate you on coming this far but also urge you to enroll for advancement of your education to PhD level where possible, and, also remain in touch with MKU, your Alma Mater. May you receive God's blessings in your endeavours.

Asanteni Sana na Mungu Awabariki.

Student Enrolment

During the May-August 2021/2022 semester MKU enrolled 40,274 students. MKU has established its niche through offering competitive programs in the 13 schools.

Student Co-Curricular Activities

To develop holistic persons MKU focuses on both academic and student co-curricular activities. Early this year, student elections were successfully conducted in an electoral system that was all-inclusive, credible and transparent. The University also participated in Kenya Universities Sports Association, (KUSA) games and emerged number two with a total of 60 medals.

Accreditation of Open, Distance and Electronic Learning (ODEL)

The University has supported the Directorate of ODEL's robust activities in developing and upgrading of e-content to enhance the platform.

Approval of revised and new curricula

To ensure that MKU meets the market needs, the University has continuously improved the existing curricula. Bachelor of Medical Laboratory Sciences, Bachelor of Pharmacy and Diploma in Pharmaceutical Technology curricula were revised. The Commission for University Education has approved the Bachelor of Computer Science and Bachelor of Science in Medical Biochemistry programmes.

Transitioning of University Curricula to Competency Based Curricula (CBC) and review of University Common units

To ensure that MKU remains competitive in the labour market and compliant with the curricula reforms in the basic education, MKU has actively embraced the process of transitioning its curricula to CBC requirements. MKU is also reviewing University common units to ensure that graduands have the 21st century skills.

Establishment of Centres of Excellence

Message From

THE VICE-CHANCELLOR DESIGNATE, MKU RWANDA

PROF. EDWIN ODHUNO, PhD
Vice-Chancellor Designate, MKU Rwanda

I take this opportunity to congratulate the class of July 2022 as well as their parents and guardians. As an institution, we laud the Rwandan government for providing an enabling operating environment. We appreciate the steadfast support of our business associates and the contribution of our diligent staff through their resilience and fortitude.

As a team, we are privileged and proud to have played a role in preparing the graduating class to thrive in a highly competitive world. They join expanding MKU alumni who stand out in the job market for their high employability. Others go on to create their enterprises and become employers.

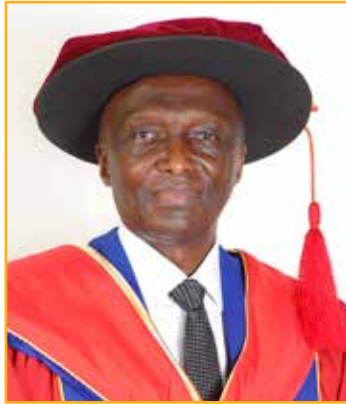

Producing such high-quality graduates is the outcome of the university's steady investments in quality education through expansive facilities and modern technology enabling our knowledgeable and experienced faculty to deliver rich, market-driven curricula.

To make learning as practical as possible, the university keeps building the necessary infrastructure and also procuring relevant equipment. We are currently building a hospitality training hotel on our campus grounds. This facility will help sharpen our hospitality and tourism students to substantially contribute toward the growth of one of the country's major sectors. With such facilities, Rwandan students need not travel outside the country to study hospitality and tourism.

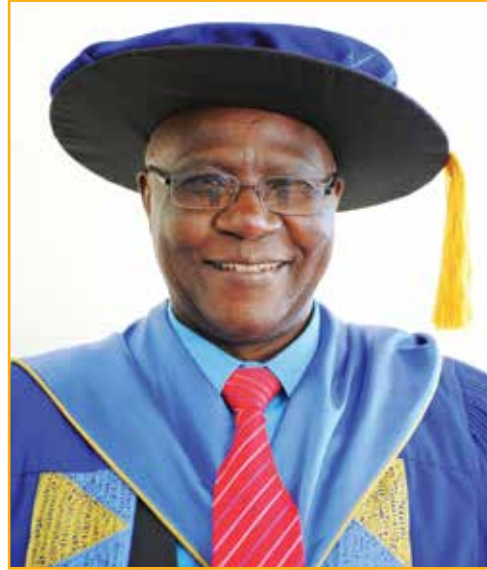

I would like to challenge all students who graduate today to be good ambassadors of MKU. By completing your studies, you have already demonstrated that you are responsible human beings, capable of pursuing a noble mission to a conclusion. Now, go forth and use the knowledge, skills and attitudes you have acquired to develop yourselves, your communities and the nation at large. Remember that, as the Bible says, to whom much is given (in the form of quality education), much will be required!

I would like to challenge all students who graduate today to be good ambassadors of MKU. By completing your studies, you have already demonstrated that you are responsible human beings, capable of pursuing a noble mission to a conclusion.

Mount Kenya University has nominated Daniel Munyao Yumbya for the conferment of honorary Doctor of Humane Letters (Honoris Causa) of Mount Kenya University. This conferment is in recognition of the following ;

1. Policy contribution and notable feats.

Mr. Yumbya's vast policy contribution and notable feats as a versatile public servant per excellence has contributed immensely to the growth and empowerment of the health sector. His contributions have been immeasurable, as seen in the various milestones achieved by the Kenya Medical Practitioners and Dentists Council.

He is credited with mobilizing resources internally and prudent financial management for the purchase of a plot

and construction of the Council's office complex at Hurlingham, Nairobi. He also set up regional offices to ensure compliance of both doctors and health institutions in the delivery of Universal Health Care.

For the years Mr. Yumbya has been at the helm of the Kenya Medical Practitioners and Dentists Council, he has been at the forefront of transforming the institution by introducing the best public sector practices and good corporate governance. He is a seasoned health regulator with a passion to ensure quality healthcare delivery and patient safety. The net effect of his immense selflessness and contribution has enhanced access, safety and quality of service provision.

2. Registration of Doctors

Since the year 1999, when Mr. Yumbya joined the Board which later became a Council, 11,178 medical and dental practitioners have been registered. This is against doctors registered between 1978 and 1998, where 4,522 had been registered. Registration trends have been an average of 480 doctors annually.

The current number of registered doctors stand at 15,672, out of which 10,134 are active for year 2022. This brings the doctor-patient ratio of 1: 5156 for medical practitioners and 1:52326 for dental practitioners.

Being a result-oriented leader, Mr. Yumbya has supported the increase of Medical and dental training institutions in Kenya to 11 medical schools and 2 dental schools. In the EAC Region, 26 medical schools and 5 dental schools have been accredited with mutual recognition agreement. This has helped the region churn out many doctors and in turn help the needy population.

3. COVID-19 Intervention

Mr. Yumbya has been the Head of Secretariat for the National Command Centre for Coordination of Quarantine and Isolation Facilities and MOH Technical Assistance Team for mitigation of COVID-19 Pandemic and Strengthening of Health Systems for UHC in the Counties which is domiciled at the Kenya Medical Practitioners and Dentists Council.

He was responsible for identifying suitable isolation and quarantine facilities nationally which enabled the positive cases to be appropriately isolated for observation and treatment. During this period, he oversaw licensing of over 170 approved isolation facilities, offering COVID services to affected citizens. The outcome of the verification exercise notably improved scores for health facility infrastructure and more so in Infection Prevention and Control.

4. Policy Document Development and Dissemination

He has been instrumental in the development and dissemination of

key National and Regional health policy documents which include 1st Kenya National Patients' Rights Charter, Code of Professional Conduct and Discipline for Doctors, Continuing Professional Development Guidelines for Doctors, National Training and Quality Assurance Standards for Medical & Dental Schools & Teaching Hospitals in Kenya and Regional Guidelines for Inspection and Recognition of Medical Schools and Teaching Hospitals in EAC states.

5. Association of Medical Councils of Africa (AMCOA)

In the African Continent, Mr. Yumbya has been at the helm of Association of Medical Councils of Africa (AMCOA) Management Committee, where he Chairs the Finance Committee since 2012. The primary purpose of AMCOA is to support medical regulatory authorities in Africa in the protection of the public interest by promoting high standards of medical education, registration and regulation, and facilitating the ongoing exchange of information among medical

regulatory authorities. Under his leadership, several protocols have been developed and disseminated.

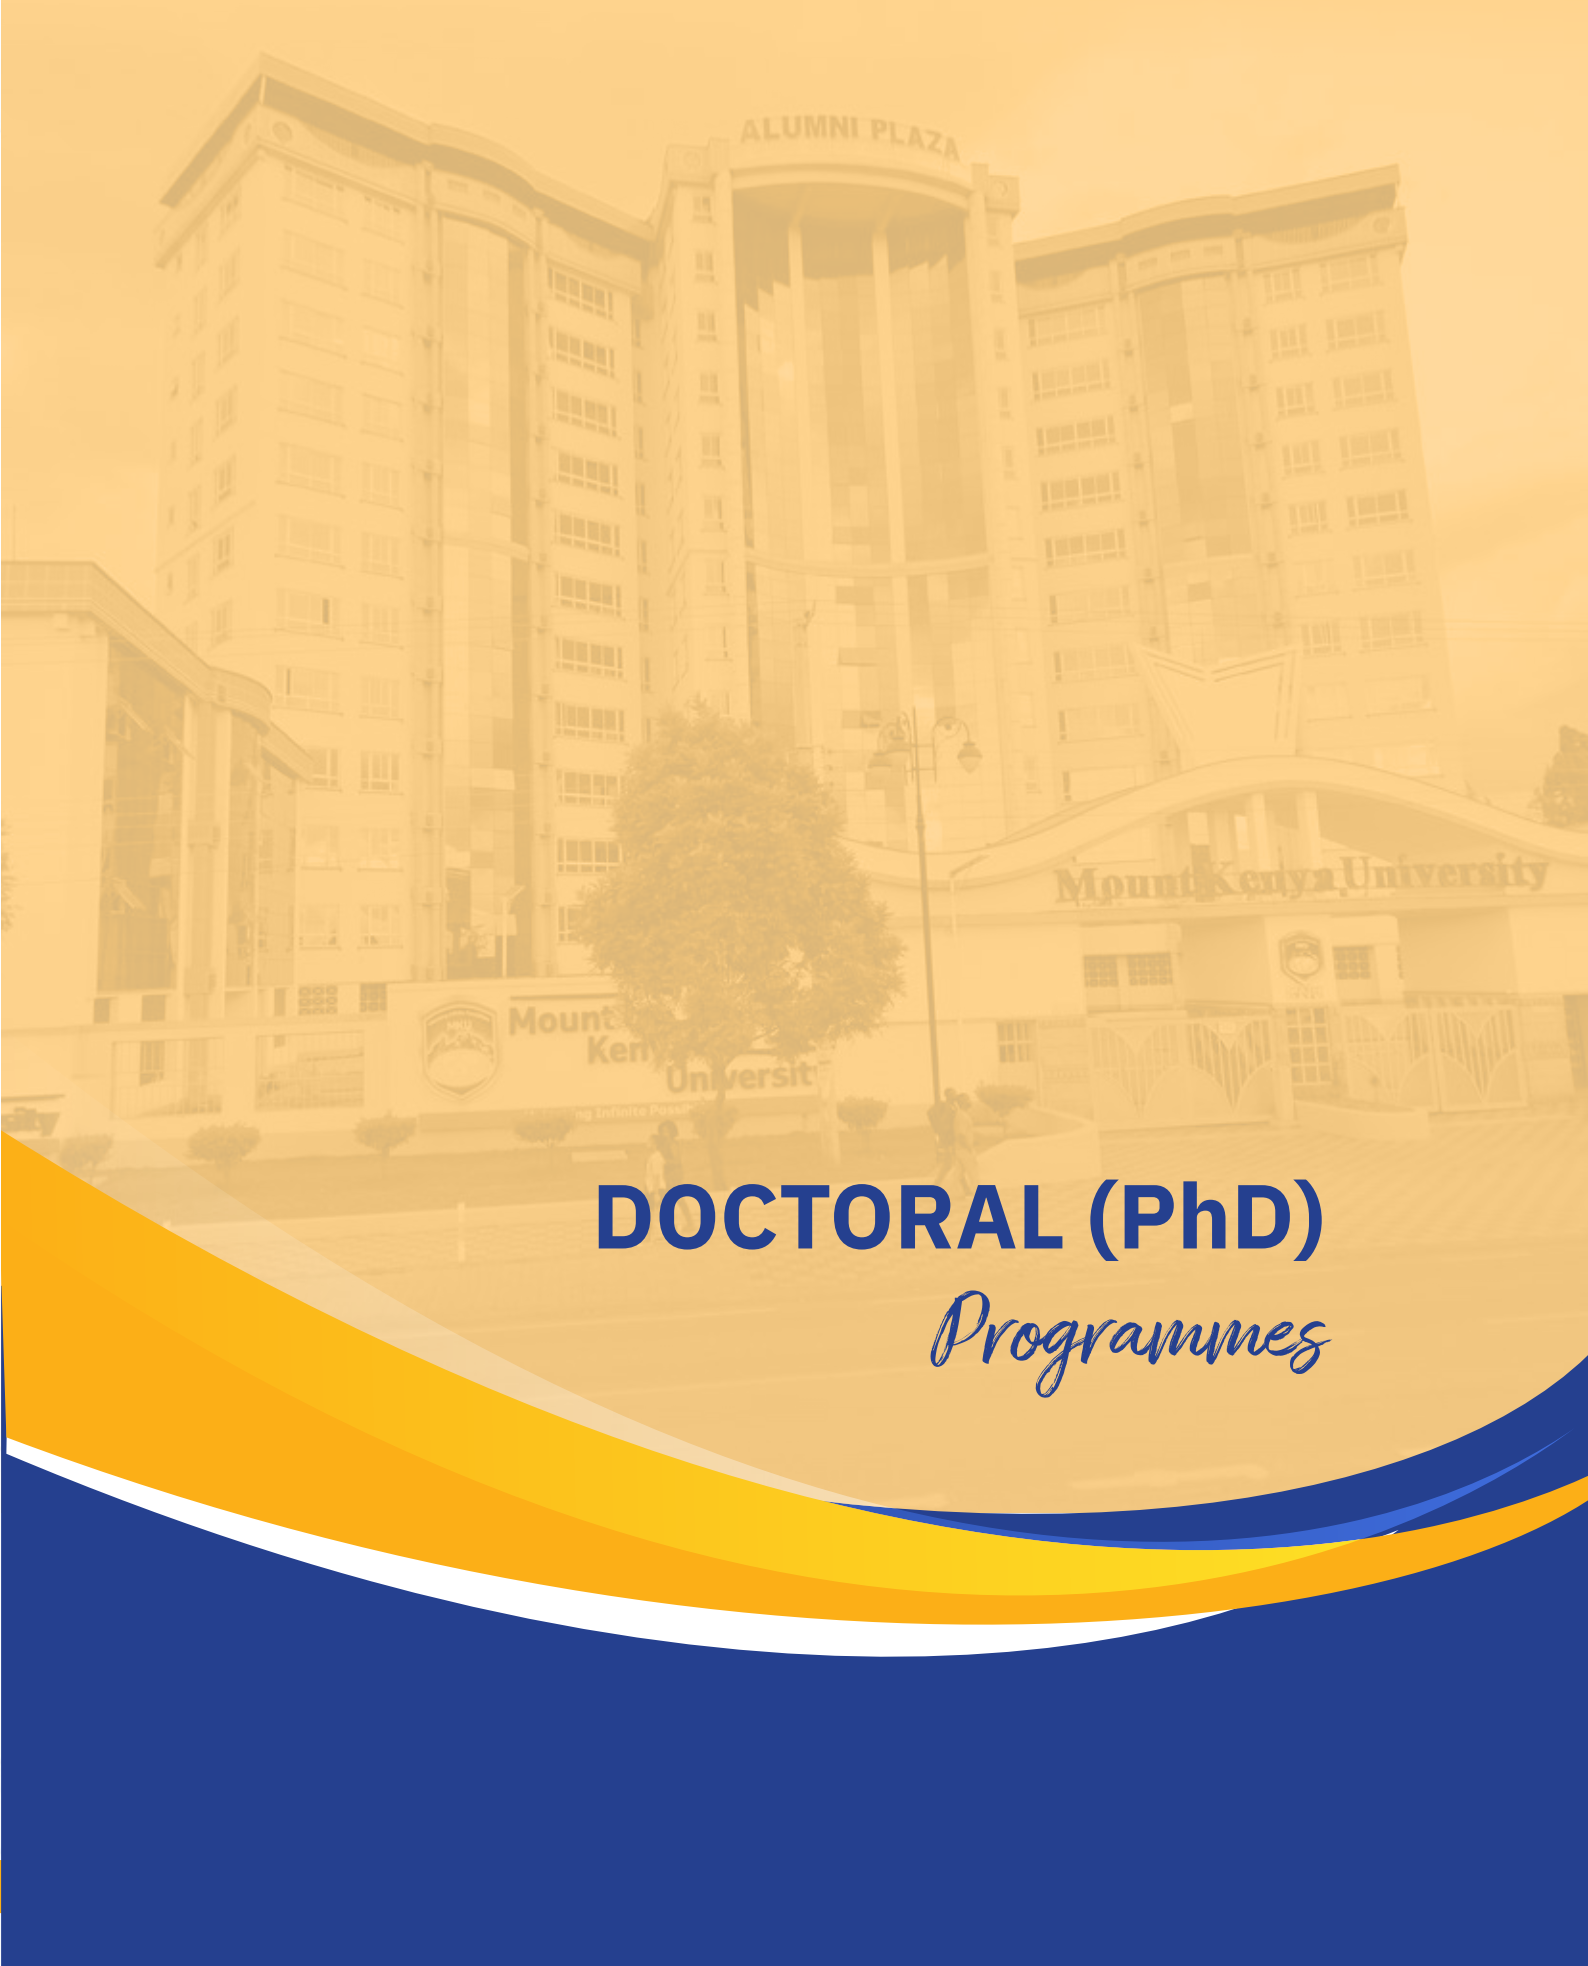

6. International Association of Medical Regulatory Authorities (IAMRA)

HIPPOCRATIC OATH - School of Clinical Medicine

I,.....

Reg. No. swear to fulfill, to the best of my ability and judgement, this covenant: I will respect the hard-won scientific gain of those physicians in whose steps I walk, and gladly share such knowledge as is mine with those who are to follow. I will apply, for the benefit of the sick, all measures that are required, avoiding those twin traps overtreatment and therapeutic nihilism. I will remember that there is art to medicine as well as science, and that warmth, sympathy and understanding may outweigh the surgeon's knife or the chemist's drug.

I will not be ashamed to say "I know not," nor will I fail to call in my colleagues when the skills of another are needed for a patient's recovery.

I will respect the privacy of my patients; their problems disclosed to me that the world may not know. Most especially must I tread with care in matters of life and death. If it is given to me to save a life, all thanks. But it may also be within my power to take a life: this awesome responsibility must be faced with great humbleness and awareness of my own frailty. "Above all, I must not play at God".

I will remember that I do not treat a fever chart, a cancerous growth, but a sick human being, whose illness may affect the person's family and economic stability. My responsibilities include these related problem, if I am to care adequately for the sick.

I will prevent disease whenever I can; bearing in mind prevention is preferable to cure.

I will remember that I remain a member of society, with special obligations to all my fellow human beings, those of sound mind and body as well as the infirm.

If I don't violate this oath, may I enjoy life, be respected while I live and remembered with affection thereafter. May I always act so as to preserve the finest traditions of my calling, and may I long to experience the joy of healing those who seek my help

So Help Me God!

The conference themed “molecular bio-genomics and bioinformatics” was held in the Mwai Kibaki Conventional center, Mount Kenya University-Main Campus, Thika. between 11th and 13th April 2022. The conference, which was organized by the Directorate of Grants and Development, brought together participants from different academic groups ranging from post-doctorates, PhDs, Master’s, undergraduate, and high school students.

Some of the keynote speakers who addressed the conference included Prof. David Anderson from Burnet Institute, Australia; Prof. Matilu Mwau from KEMRI; Dr. Moses Aलोbo from Science for Africa Foundation; Dr. Ochola from IPR and Prof. Mtakai Ngara from Karolinska Institute.

The conference was officially opened by Prof. Deogratius Jaganyi, Vice-Chancellor, Dr. Bibianne Waiganjo, DVC ARA; Dr. Peter Kirira, Principal CGSR; and Dr. Jesse Gitaka, Director Grants and Development also attended. Edible Cups!

MKU LAW STUDENT INVENTS EDIBLE CUPS THAT IMPRESSED THE WORLD DURING THE STOCKHOLM CLIMATE MEETING

Sheryl Mboya

In a bid to replace non-biodegradable single-use plastics, Sheryl Mboya - a Law student from Mount Kenya University - has invented 'Snackuit', edible plates, and cups. Her invention caught the world's attention at the Stockholm Environment Meeting that took place between June 2 - 3 this year. Mboya noted that the edible plates and cups are a replacement for the traditional plastic ones and are environmentally friendly.

"Snackuit is a sustainable alternative to single-use plastics. It can be eaten after the completion of a meal," she told the conference delegates. The law student compared the products to ice cream, gelato, and sorbet cones. Gluten-free flour is the main

ingredient in making Mboya's edible kitchenware, an aspect of the product that caters for consumers with gluten allergy.

However, Mboya states that sugar substitutes are added to guarantee the taste.

The aviation industry, according to Mboya, is the largest user of single-use plastic and is her main target market. The Snackuit team has partnered with the National carrier - Kenya Airways - to make the products and plans are underway to roll it out in the whole aviation industry in the country once complete.

Mboya's edible kitchenware comes in different flavors to satisfy the diverse market. Her futuristic invention aims at reducing the harsh effects of climate change caused by non-biodegradable plastics.

social, economic, and political imbalances that every successive government ought to implement to address the shortcomings that at times stir violence,” said Munya, whose speech was delivered by PS, Dr. Francis Owino, Fisheries, and

Conference both physically and virtually.

In his speech, Munya lauded the Competency-Based Curriculum (CBC) as the best education program that will enable the country to tap into the changing job market dynamics across the world. Munya said several international ICT companies continue to express their interest in investing in Kenya and as such the CBC curriculum will help in channeling human resource capital to the ICT market.

Agriculture Cabinet Secretary Peter Munya has called on Kenyans to observe peace before, during, and after the general elections. CS Munya said the country has a robust constitution, which can address any emerging differences amongst Kenyans through the right channels instead of resorting to violence.

“Our constitution affirms the rights of all Kenyans. It has also addressed

Blue Economy.

The three-day conference dubbed “The Role of Universities, Public and Private Sectors in Peace Building for Socio-economic Development” brought together stakeholders in government and private sector intending to create a focus on the best paradigms needed to entrench peace, security, socio-economic and political development. More than 500 delegates attended the Second International Peace, Security and Social Enterprise (ICPSSE)

“CBC is meant to prepare learners to be ICT-compliant. We need to emulate China which has continued to grow its human resource capital by embracing ICT and this has attracted over 130 ICT companies to the country because of its assurance of human capital. We are able to achieve this through CBC,” Munya said in a speech read by Fisheries and Blue Economy PS Francis Owino.

IDADA in Kisumu

03 plus marks International Day Against Drug Abuse and illicit trafficking (IDADA) in Kisumu with the County Government

Every year on 26th June, NACADA commemorates IDADA, established by United Nations General Assembly in 1987. This day serves as a reminder of the established goals agreed by the member states of creating an international society free of drug-abuse. As a prelude to IDADA commemoration, NACADA in collaboration with the Ministry of interior and coordination of national government and other stakeholders organized several activities on awareness-creation to Alcohol and Drug Abuse prevention and mitigation within Kisumu County.

UNESCO O3 plus implementers, Mount Kenya University and the University of Nairobi campuses in Kisumu, joined the county Government of Kisumu, NACADA and other key players on 25th June 2022 at Masogo Nyang'oma Rehabilitation Centre, Muhoroni subcounty in Kisumu County. The theme of this year's event was, **"Addressing Drug Challenges in Health and Humanitarian Crises"**.

Prior to the day of celebration, the planning team held several meetings to pool up resources and offer other relevant services alongside the awareness-creation on Alcohol. Drugs and Substance abuse/use. About 50 students participated from Mount Kenya University and University of Nairobi, 10 staff members from the two universities, 1 UNESCO O3 plus project assistant and about 1000 members of the community

participated as well as children and minority groups. The following services were offered to the students and the community during the event to promote healthy living as informed by healthy choices:

- A 5Km walk procession, distributing IEC materials and displaying of placards
- Risk-reduction counseling in HIV/AIDS, mental health services; screening, and addiction counselling through group and individual therapies
- Live media coverage and photography with Gisell Media Foundation- a stakeholder in the IDADA celebration
- A football match between O3 Plus team versus Nyang'oma community team, prize-awarding and first-aid to the participants with injuries

Nyang'oma community during the procession.

O3 plus team joining the 5km procession walk during the IDADA celebration.

Kisumu O3 plus team posing for a photo during the event.

Challenges

- Delay in contracting with UNESCO resulting in a failure in the disbursement of funds to facilitate the activity, leading to fewer student participation and not enough IEC materials to visualize O3 plus

Lesson learnt

- Community engagement is an important factor in improving the health and wellbeing of young people as they interact with the community stakeholders more often. Participation in the 5Km O3 plus sensitization walk and the IDADA one attracted people from the community, including children, persons with disability, community policing and 'boda boda' (motorbike) riders. This can be translated as ownership and acceptance.

- Partnership with key stakeholders is important in resource mobilization, mapping of the service providers within the project area of study and possibility of sustenance due to the collaboration with the county governments
- Improving the health and wellbeing of young people contributes to peace-building processes in the community.
- Youth networks are running health and wellbeing initiatives, that require support and capacity-building to improve their work.
- Good and strategic planning, coupled with flexibility in scheduling of events is crucial in implementing activities of the O3 plus. The IDADA day was celebrated a day earlier in order reach out to as many people

as possible leveraging on the market day of the Nyang'oma community.

Conclusion and recommendations

- There is a need to ensure that activities around young people include community and other stakeholders to ensure safe and conducive environments for the youth in HTEIs
- It would be impactful to meaningfully engage youth networks in advancing health and wellbeing of young people.
- More capacity-building for the university health services is needed
- There is need to advocate for more resource allocation to the satellite campuses so that activities are run effectively to gain good intervention.

The students from the two universities not only shared messages of good health during the walk but also their experiences with the delegates who joined them led by Prof. Hubert Gijzen, UNESCO Regional Director; H.E. Ambassador Fionnuala Quinlan, Embassy

of Ireland; Ms. Elena Gallenca, Director of Italian Cultural Institute, Embassy of Italy; Prof. Deogratius Jaganyi, Vice-Chancellor, Mount Kenya University; Prof. Stephen Kiama Vice-Chancellor, the University of Nairobi, among other representatives from UN.

The scholarship has been of great impact to me because I had **NOT** been in session for several consecutive semesters due to difficulties in raising the required funds for my fees. This being the second time I have been awarded this scholarship it has given me a chance to complete my Diploma programme. I thank MKU Foundation for according me the opportunity to continue with my studies and other students experiencing the same challenges.

I highly recommend you to apply for the MKU Internal Scholarship offered through MKU Foundation since it is giving hope where there is no hope. Thank you very much.

May God bless you all. #**UNLOCKING INFINITE POSSIBILITIES**

My name is **Mitchell Akoth Ochieng** and I am a 4th year student undertaking my Bachelor's degree in Education at Mount Kenya University. I was one of the recipients of the MKU Internal Scholarship 2022. The scholarship has been of great impact to me because, as a daughter of a single mother fending for me and my three siblings, I was worried about continuing with my studies given that my mother was not in a position to finance my studies.

I thank God that I was selected as one of the beneficiaries. I thank MKU Foundation for according me the opportunity to continue with my studies in Mount Kenya University. I would like to encourage my fellow

My name is **Adeyi Stephen Oyekunle** from Nigeria and I am a final year student undertaking my Bachelor's degree in Information Technology at Mount Kenya University. I was one of the recipients of the MKU Internal Scholarship 2022. The scholarship has been of great impact to me because of the adverse effect of COVID-19 which has really affected me financially.

I thank MKU Foundation for according me the opportunity to continue with my studies and I am using this opportunity to advise other students who are in need of scholarship to support their studies to apply for the MKU Internal Scholarship. If you qualify, you will surely be a beneficiary. I thank MKU Foundation for this great and rare opportunity, I am really grateful and may God continue to bless the Foundation till eternity. Shalom!

My name is **Justus Kimilu** and I am a 3rd year student undertaking my Bachelor's degree in Social Work and Administration at Mount Kenya University. I was one of the recipients of the MKU Internal Scholarship 2022.

The scholarship has been of great impact to me because my father who was the breadwinner of our family got a spinal cord injury through an accident at work that incapacitated him. The high medical expenses had me discouraged to the point of considering to switch to digital mode of learning because of limited funds but this scholarship has given me hope.

I thank MKU Foundation for according me the opportunity to continue with my studies and I encourage each and everyone especially persons with disability to take advantage of the scholarship opportunity. God bless the cheerful givers of Mount Kenya University Foundation.

My name is **Benard Kaiga** and I am a 3rd year student undertaking my Bachelor's degree in Public administration and governance at Mount Kenya University. I was one of the recipients of the MKU Internal Scholarship 2022. The scholarship has been of great impact to me because it has gone a long way to cater for my fees. I will now have more time to focus on my studies in stead of looking for side-hustles that would take up to more than 15 hours per week and become an obstacle to my academic success. I understand that just like other students, it would have been stressing to balance working at the same time learning, which would have made it difficult for me to graduate on time, or graduate with the high grades. At the same time because the work/study life is unsustainable, it may have made me

discontinue my studies altogether for lack of fees, being a total orphan who has once lived on the streets for over a year and rescued when I had no hope to further my studies.

I thank MKU Foundation for according me the opportunity to continue with my studies. I would like to encourage every student reading this that the process by the Mount Kenya University Foundation Scholarship to select beneficiaries is free, fair, transparent and credible.

Everyone has an equal chance of being awarded. I therefore want to thank Mount Kenya University Foundation for their generosity towards students who have a vision of furthering their education in Mount Kenya University.

My name is **Abdikheir Issa Ahmed** and I am a 3rd year student undertaking a Bachelor's degree in Pharmacy at Mount Kenya University. I was one of the recipients of MKU Internal Scholarship 2022. The scholarship has been of great impact to me because I had a big problem in paying my fees as I am an orphan, having lost my father.

I thank MKU Foundation for according me the opportunity to continue with my studies and I would like other students who have similar problems to take a chance and apply for the next scholarship opportunity. Thank you MKU Foundation. Words fail me to express my gratitude, God bless you.

ABOUT MKU INNOVATION & INCUBATION CENTRE

Economic growth may not create enough jobs to absorb new entrants into the market. Formal larger organizations and corporates are not able to absorb numbers. Most wage employment comes from Small Medium-sized Enterprises (SMEs), therefore at small scale per enterprise. Entrepreneurship has come out as the biggest opportunity for the youth, especially in creative arts, agribusiness and online working. However, there is minimal support and unfriendly conditions to run businesses.

The global 4th industrial (digital) revolution, is changing the way we live and digital innovation can help many Kenyan business models improve their business

performance and/or tap into new markets. There is more demand for digital skills, a trend that has been observed across sectors.

The MKU Innovation & Incubation Centre is a timely opportunity to provide the appropriate environment to nurture innovations. It has been found that startups are likely to fail in the first two years, or stay micro-size. Government policies for starting a business are unfavorable.

To this end, MKU announced the first Innovation Challenge on 17th February, 2022, which was open until 18th March, 2022. The purpose of the innovation challenge was to provide an opportunity for Kenyans to display their innovations that will lead to groundbreaking products

and services. The innovations included scaling up of new products, technologies, processes and services with the intention to bring them closer to the market for accelerated industrial and socio-economic development in the country.

This year's call focused on innovations addressing the following five Sustainable Development Goals (SDGs):

Centre for Professional Development

MKU SCHOOL WORK-BASED PROGRAMME

obtained from investigation, study or instruction. Here at Roadstar, information is the most basic building-block of our operations. Thanks to Mount Kenya University, students like myself get to utilize our skills and introduced us to the global business industry at a young age. As an information Technology student at the campus, this has been of great benefit to me. Financial benefits aside, I have grown my leadership, communication and technical skills. Being a programme led by young people, for young people, we live by the slogan that even the biggest button in the keyboard types nothing. Therefore we encourage everyone's input and embrace diversity of thought and approach.

Mount Kenya university, in partnership with Roadstar Inc, introduced a school work-based programme for its students and alumni to enable them finance their education and also gain experience in the work environment. The programme was started back in December 2019, and over 50 students have benefitted.

Roadstar is a transport and logistics company that offers trucking, monitoring, data collection and management services, to truck drivers in the United States. Currently the center is servicing roughly 650 truck-drivers, 24 hrs a day. The centre currently has 31 students. The center offers a salary

range of 20,000-75000 a month. Here are some of the beneficiaries of the programme.

TESTIMONIALS:

Martin Muchiri

Webster's dictionary defines information as knowledge

Moreen Gatwiri.

I am a graduating student with a Diploma in Community Development and Social Work. I was privileged to be among the first students who joined Roadstar back in 2020. This opportunity came in handy in helping me pay my school fees at the time and also be

able to support my basic financial needs more so when the COVID-19 pandemic struck. It continues to be beneficial during the current economic crisis. Roadstar being an internationally-based company, has helped me gain skills such as better communication, critical thinking, analytical skills and team-building among others, which I believe will be useful in the future.

My name is **Brice Eleto Ihorimbere**, pursuing a Master's Degree in Business Administration, Finance. It has been quite a fruitful experience working under this MKU-based programme. Being a Burundian student with a French background in a country like Kenya, it has been a challenge advancing career-wise.

Beside financial benefits, I cannot emphasize enough how meaningful the Roadstar program has been. It is inspiring to work with such young, vibrant and diverse colleagues. Connecting, sharing ideas and perceptions of work or life in general, embodies the benefit that I am enjoying.

Briefly, Roadstar experience is beyond just a work programme; it encapsulates a student-employee life that significantly impacts on all its recipients skills and personal development.

My name is **Rukiya Ahmed**, a student in MKU undertaking Bachelor of Science in Community Health. Roadstar Company, has given me a sense of pride, identity and personal achievement. It has been very beneficial to me. Personally, I have attained quick problem-solving and multi-tasking techniques. Financially, I am able to cater for my education and co-curricular needs. I have attained social advantage through interrelating with my colleagues and supportive staff. It has added to my working experience, keeps me busy, challenges me and gives me the means to develop myself.

My name is **Abdiaziz Mohamed (Yare)**, a 4th-year student pursuing a bachelor's degree in industrial chemistry. A surprising succession of events made me know about the Roadstar programme in MKU. I loved the idea immediately. Luckily my good intuition was confirmed when I started working. I am enjoying a flexible lifestyle as a student and employee. I cannot stress enough how much I like the social interactions with my

colleagues. I specifically like the diversity of their backgrounds and ideas which sharpen me as a better person. I am grateful to Roadstar as I am living a dream-life as a student while also enjoying the financial benefits.

My name is **Peter Luze**, originally from Tanzania. When I first came to Kenya, my purpose was to actualize my educational goals. Mount Kenya University has played an important role as I now have a Bachelor's degree in Commerce (Accounting).

During the Covid-19 pandemic, back in 2020, I was in my fourth year and needed to find a company where I could do my attachment. This proved to be difficult but then I got an opportunity at Roadstar. This programme has not only helped me in my education but also sharpened my leadership skills as I am now the assistant manager. It has given me a livelihood to depend on while living in Kenya and a chance to grow myself as an individual. It has proven to be a pillar in my life. I have learned and experienced a lot.

I am so grateful to the leadership of Mount Kenya University for trusting and giving Roadstar a chance to work, mentor and help several individuals in the university and the community. We are still growing and impacting more people. We hope for much more in the days to come.

MISSION

TO IDENTIFY, NURTURE AND MATURE YOUTHFUL GRADUATE ENTREPRENEURS ACROSS AFRICA

Mount Kenya University's Graduate Enterprise Academy (GEA) was instituted in 2013 as a community outreach platform whose activities are primarily geared towards youth empowerment and edification through entrepreneurial and leadership-oriented training. The impact of GEA has been phenomenal. This owes to two main reasons among others. These are the carefully selected and highly potent training which is blended from amongst relevant and renowned programs derived from across the globe and the fact that it is offered by a team of well-qualified and experienced practitioners and professors.

The GEA program at MKU has gone through progressive changes since inception which have been informed by the community dynamics as well as viability options. So far, two cohorts have been commissioned whose beneficiaries are running their businesses as well as mentoring others across the country. As a business accelerator, GEA embraces the Public – Private Partnerships strategy to ensure a quad – helix model. Exhibitions, face-to-face and digital mentoring, networking and monitoring and evaluations are key hallmarks of the GEA's strategic operations.
