

## **Kiambu.** Varsity unveils project to cut mortality

■ Mount Kenya University (MKU) in collaboration with Bungoma county government has unveiled state-of-the-art Newborn Units to reduce infant mortality. The project dubbed "Collaborative Newborn Support Project" is funded by UKaid through the County Innovation Challenge Fund. It was implemented by MKU together with local stakeholders and the Kenya Paediatric Association. The new facilities can handle 320 newborns at any given time.
