ABSTRACT.

The establishment of F.P.E in January 2003 sought to do away with the tuition fees and other levies in public primary schools leading to high enrollment with impact on the management of primary schools. This study aimed at investigating the impact of F.P.E on the management of pupils, teachers, physical resources and curriculum and instruction in primary schools in Embu west district.

Data collection was done through questionnaires and interview schedules. Data collected was analyzed using descriptive statistics in the form of frequencies and percentages presented in tables. F.P.E has both positive and negative impact on the management of primary schools.
