THE PRINCIPAL, MAKERERE UNIVERSITY BUSINESS SCHOOL, UGANDA

PROF. WASWA BALUNYWA
Principal Makerere University Business
School (MUBS)

Higher education in our African context should be on the forefront in assisting the communities to end inequalities, bring about unity in diversity and ensure inclusivity. The education we offer at our higher education institutions must assist individuals realize their greatest potentials within their own environment rather than alienating them. In deciding what kind of higher education to be offered in a country, cognizance of the population is necessary and two main questions need to be addressed, namely, what are our priorities and what skills do we need to inculcate? We must pay attention

to the alienating potential of higher education to the population which must be avoided in a way that brings about relevance. For instance, we have a lot of sunshine in Africa. So how much emphasize have we placed on solar energy production and its utilization? What about studies based on agriculture and other natural resources which are so relevant in Africa? We must have our priorities right. As universities, we must embrace community engagement in order to understand our local communities well enough, come up with society-based projects and curricula, come up with strategies of tackling challenges facing the local communities such as environment degradation, conflicts, unemployment, dehumanizing poverty levels, youth radicalization, diseases, and many others. When higher education institutions successfully integrate their programmes with the needs of the local, regional and global communities, it is only then that they become vehicles for the achievement of equity, unity in diversity and inclusivity.

Thus, congratulations to MKU students, staff and management on the recognition by the United Nations Academic Impact office as the SDG 10 HUB on Reduced Inequalities. This is a perfect testimony of MKU's continued effort in enhancing equity, unity in diversity and inclusivity in the society.

Finally, I wish to congratulate the parents and guardians, graduands, staff, university management at MKU as well as all the stakeholders on all contributions that led to the successful completion of the graduands' studies and eventually to today's graduation ceremony. To the graduands, remember the sky today is one of your lowest limits in your achievements and it is no longer the highest limit. Strive to be the best you can be in whatever you set your mind to do.

Thank you and may God bless the East African Community.

Message From THE CHANCELLOR

**PROF. JOHN J.M. STRUTHERS,
MA (Hons), MPhil, FRSA, FHEAS**
Chancellor, MKU

I am happy to pass warm greetings from myself, my family and colleagues to you all. **HAMJAMBO!**

Congratulations to our graduands who have made us all gather in this virtual graduation ceremony as a celebration of a job well done. Congratulations also to the parents and guardians, staff and university management as well as all the stakeholders for this is indeed a team's victory. As a team, you have all worked tirelessly in your respective roles in the academic journey, whose outcomes we celebrate today.

The rising prominence of Partnerships at MKU

I am happy to note the ever rising status of partnerships at MKU in terms of their impact to the University and to the society in general and their contribution to the visibility of the university at the global level as depicted in the following few examples. These include, just to highlight a few, the award to MKU of the unique opportunity by the United Nations Academic Impact (UNAI) Office in New York, to serve as the UNAI SDG 10 - Reduced Inequalities hub; the renewal of the partnership agreement between Danish Refugee Council and MKU which has seen over 35 students secure full scholarship at MKU in 2021; the new partnership between United Nations Institute for Training and Research (UNITAR) and MKU; the award to MKU of the International Junior Nurse Fellowship by the Bradford District Care NHS Foundation Trust (BDCFT) in the United Kingdom for a 12-month long project; and the MoU with the Women Enterprise Fund for capacity building in entrepreneurial skills. At a personal level, I am also happy to announce about my newly co-authored book entitled, *“Enterprise and Economic Development in Africa”*. The Chapters 6 and 10 in this book are on women enterprise development in Kenya and on MKU's Graduate Enterprise Academy, respectively contributed by 3 MKU scholars. The book will have a significant contribution to Africa's socio-economic development and reduction of inequalities within the continent as areas of priority.

Community Outreach activities at MKU

I am happy about the continued growth in quality and number of community support activities by the MKU fraternity at all levels, right from students clubs, faculty, and the University management in the course of this year. This included environmental conservation through tree planting at different places, the care to the persons who are enabled differently.

To this end, I wish to thank the University's Board of Directors, University Council and Senate for providing effective leadership towards a steady growth of Mount Kenya University.

Message From THE VICE-CHANCELLOR

PROF. DEOGRATIUS JAGANYI,
PhD, MSc, DIC, MRSC
Vice-Chancellor, MKU

It gives me great pleasure to welcome you all to the 19th Graduation ceremony of Mount Kenya University. I congratulate all the graduands on completing their studies successfully. The success is through collective support by parents, guardians and staff. Today we are celebrating the academic achievements of six thousand, five hundred and fifty-six (6,556) graduands who have fulfilled senate requirements for conferment of various degrees and award of diplomas and certificates. The graduands have been well-trained to serve the world in a diligent and transformative way.

Students Enrolment

The university has continued to enroll students in various market-driven academic programmes. MKU has established its niche and has assembled academic resources and qualified human resource to support the growing number of students. MKU has remained a preferred destination for local and international students through government or self-sponsorship.

Students' Academic Progression

An automated monitoring tool has been developed to ensure that the students and their guardians can accurately determine the academic standing of every student at any given time. It will enhance the efficiency of planning and monitoring of students' academic progression from the point of entry to and exit from the University.

Scholarships

The 2021 DAAD In-Country/In-Region Scholarships programme has awarded scholarships in MKU to four (4) Master of Science in Medical Surgical Nursing and twenty two (22) Master of Public Health Students. Additionally, MKU Foundation has supported 103 bright and needy students.

Research, Innovation, and Community Engagement

MKU has received an additional six (6) grants this year valued at approximately Ksh.112 Million. MKU is coordinating several innovation projects and our expectation is that some of these innovations will become successful enterprises in future.

Community Engagement

Talloires Network of Engaged Universities, USA Award on Innovative Civic Engagement has supported treatment and public health interventions to 3,542 school-going pupils and adults in Kilifi county. This intervention that is jointly implemented by MKU and Partners For Care, is expected to improve the health and reduce school absenteeism of pupils in the county.

Quality Assurance

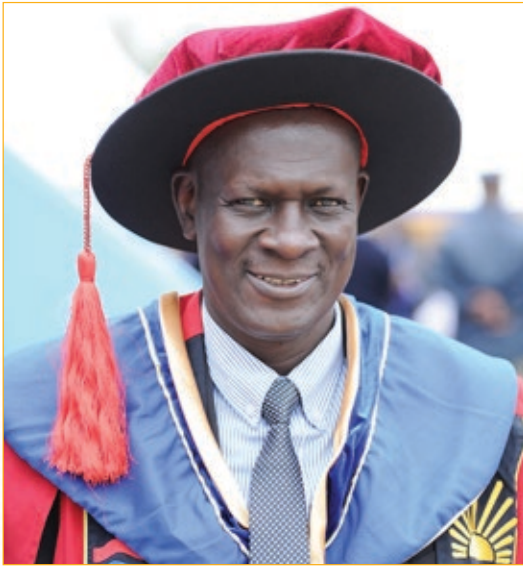

The university has ensured that quality assurance and enhancement practices at all areas of the university are documented, monitored, reviewed and evaluated for continuous improvement.

Additionally, the University has automated most of the strategic information systems to integrate the strategic management, process management and monitoring-measuring systems as well as take into consideration international, national and regional external factors.

GOD BLESS YOU ALL.

MOUNT KENYA UNIVERSITY RWANDA ON THE DIGITAL LITERACY SUPERHIGHWAY

The year 2019 appeared to enter homestretch ordinarily, until unusual events occurred in China that few in Rwanda knew: the Covid-19 outbreak. By March 2020, nothing was normal anymore as a lockdown ended university life, as we knew it.

MKU was one of the few learning institutions in Rwanda to successfully leverage technology in pedagogy, supervision and assessments.

The government immediately recommended remote-teaching and learning. As we embarked on adjusting to the new normal, a myriad of obstacles emerged, among them the lack of proper infrastructure, reliable Internet and integrity of the remote learning. One could easily conclude that these obstacles were insurmountable.

But in the face of increasing difficulties, Mount Kenya University differentiated itself by riding on the challenges to deliver on its core mandate. This was made possible in part by the National ICT infrastructure plan that laid fiber optic cables. This enabled the university to migrate learners to e-learning mode. MKU was one of the few learning institutions in Rwanda to successfully leverage technology in pedagogy, supervision and assessments.

The experience of e-learning in the wake of Covid-19 pandemic has engendered fundamental lessons for the education sector. There is an urgent need to reassess, review and reposition pedagogical delivery in this dawn. MKU is working towards the possibility of a hybrid delivery system where employed graduate students can either attend face-to-face lectures on campus or opt to attend remotely from their workstations or homes. Compulsory face-to-face interactions with lecturers would be required periodically for purposes of consultations, supervision, and examinations.

The government has pointed out that going forward more universities need to adopt the blended learning mode. This is deliberate because the first pillar of Rwanda Vision 2050 encapsulates human development that requires essential investments as well as universal access to high quality of education.

Lastly, because our students and graduates have adopted and embraced the journey to digital literacy in Rwanda, I want to congratulate the class of 2021 that has prevailed over these obstacles to achieve individual academic accolades. Congratulations.

HIPPOCRATIC OATH - School of Clinical Medicine

I,.....

Reg. No. swear to fulfill, to the best of my ability and judgement, this covenant: I will respect the hard-won scientific gain of those physicians in whose steps I walk, and gladly share such knowledge as is mine with those who are to follow. I will apply, for the benefit of the sick, all measures that are required, avoiding those twin traps overtreatment and therapeutic nihilism. I will remember that there is art to medicine as well as science, and that warmth, sympathy and understanding may outweigh the surgeon's knife or the chemist's drug.

I will not be ashamed to say "I know not," nor will I fail to call in my colleagues when the skills of another are needed for a patient's recovery.

I will respect the privacy of my patients; their problems disclosed to me that the world may not know. Most especially must I tread with care in matters of life and death. If it is given to me to save a life, all thanks. But it may also be within my power to take a life: this awesome responsibility must be faced with great humbleness and awareness of my own frailty. "Above all, I must not play at God".

I will remember that I do not treat a fever chart, a cancerous growth, but a sick human being, whose illness may affect the person's family and economic stability. My responsibilities include these related problem, if I am to care adequately for the sick.

I will prevent disease whenever I can; bearing in mind prevention is preferable to cure.

I will remember that I remain a member of society, with special obligations to all my fellow human beings, those of sound mind and body as well as the infirm.

If I don't violate this oath, may I enjoy life, be respected while I live and remembered with affection thereafter. May I always act so as to preserve the finest traditions of my calling, and may I long to experience the joy of healing those who seek my help

So Help Me God!

A MODERN HOTEL TO SUPPORT HOSPITALITY TRAINING

Mount Kenya University Rwanda campus attained 10 years of service in Rwanda last year empowering generations through education. Over this period, the campus has invested heavily in modern facilities and has emerged as one of the leading higher-learning institution in Rwanda.

The Campus has applied for accreditation to be a fully-fledged university in Rwanda and is awaiting the award of charter. Currently, the campus is constructing a modern hotel, despite the challenges of Covid-19, for the department of hospitality and tourism, which will enhance hands-on training of the students in the hotel and tourism industry.

The campus has graduated over 10,000 students in the fields of Education, Business, IT, Social Sciences, Hospitality and Tourism, and in Health Sciences, including Nursing, Public Health, Pharmacy and Medical Laboratory Sciences. Most of its graduates have been employed by the government and private organizations while others are self-employed.

Artistic impression of the state-of-the-art hotel under development at MKU Rwanda. The hotel is set to create cutting-edge training opportunities for Hospitality students in Rwanda.

MISSION

TO IDENTIFY, NURTURE AND MATURE YOUTHFUL GRADUATE ENTREPRENEURS ACROSS AFRICA

Mount Kenya University's Graduate Enterprise Academy (GEA) was instituted in 2013 as a community outreach platform whose activities are primarily geared towards youth empowerment and edification through entrepreneurial and leadership-oriented training. The impact of GEA has been phenomenal. This owes to two main reasons among others. These are the carefully selected and highly potent training which is blended from amongst relevant and renowned programs derived from across the globe and the fact that it is offered by a team of well-qualified and experienced practitioners and professors.

The GEA program at MKU has gone through progressive changes since inception which have been informed by the community dynamics as well as viability options. So far, two cohorts have been commissioned whose beneficiaries are running their businesses as well as mentoring others across the country. As a business accelerator, GEA embraces the Public – Private Partnerships strategy to ensure a quad – helix model. Exhibitions, face-to-face and digital mentoring, networking and monitoring and evaluations are key hallmarks of the GEA's strategic operations.
