ABSTRACT

The purpose of this study was to establish the effects of management on the academic performance of primary schools in Gitugi Zone of Mathioya District.

To do the study research questions have been formulated to determine the effects of management on academic performance.

The researcher has reviewed literature related to management and its effect on academic performance.

The study has adopted survey design

The sample composed of 8 schools. The data was collected using questionnaires observations and interviews.

The study showed that academic performance of schools depended on the management of schools.

From the research findings the government should appoint school managers based on qualifications, skills and training.
