MOUNT KENYA UNIVERSITY.**

MARCH, 2015.

ABSTRACT

This study was about the factors influencing the poor quality education in public secondary schools in Machakos County. Due to this alarming issue, the researcher decided to find out the factors that influencing poor quality education in public secondary schools in Machakos County. It also established the solutions to the problems of poor quality education in public secondary schools in relation to teaching resources and team work of the teaching staff. The researcher also sought to establish the effect of educational cost in provision of teaching facilities in relation to poor quality education in public secondary schools in Machakos County.

The research will be of great help to policy makers, teachers, students and also parents for it is going to help them make wise decision towards achievement of ensuring that there is quality education in public secondary schools hence achieving the set educational goals.

The researcher used descriptive survey as a research design. This was to analyze solutions of poor quality education in public secondary schools, the schools cost of schooling in public secondary schools, provision of learning materials and facilities. Both quantitative data was collected for analysis. The sample included nine schools, 10 principals, 120 teacher and 2,100 students. From the various schools selected for the study stratified random sampling was used graphs with descriptive essays to analyze the findings.
