ABSTRACT

The study of this research is impact of child abuse on girl child performance in Ishiara sub-location Mbeere district Easter province of Kenya.

The purpose of the study was to investigate the impact of child abuse on the girl's academic performance in the secondary school. The study was also draw to attention of the Educators, Teachers Parents ,Head teachers and the ministry of Gender and Sport development in Kenya, that there is need to readdress the problem of the impact of child abuse in general.

The study was also to investigate the various methods that can be put in place in order to ensure no child abuse. The research was carried out in Ishiara sub-location at Karang'are Secondary school and other surrounding secondary school in Ishiara.

The findings were used to make appropriate recommendations on how to put in place proper ways of dealing with casases of child abuse in the country.
