## ABSTRACT

This study is intended to find out the Factors affecting Teaching and Learning of Language activities in ECDE Centre in Kapsabet Zone, Kapsabet Division Nandi Central .

The findings was used to establish why ECDE Centres have been performing poorly in acquiring language activities.

The Pre – School years are very important in the life of an individual. The foundation for learning and for basic attitude is laid during the first five years of life. To stimulate learning and foster health growth and development, children should be provided with appropriate materials, guidance , stimulation and care.

The target population is 53 ECDE Centres , 74 ECDE Teachers, 53 Head Teachers, 1 Tact Tutor and 1 Quazo.

The Researcher employed systematic techniques to get 15 ECDE Centres, 22 ECDE Teachers.

15 Head Teachers were purposively sampled, 1 Tact Tutor.

The Researcher adopted survey design in the research data. It was analyzed using Tables Pie- Charts and Graphs.
